### Technical Datasheet

#### General Information

<b>Name of the sub-fund</b>	TreeTop Global Conservative, a sub-fund of TreeTop Global SICAV			
<b>Legal form</b>	Sub-fund of a SICAV under Luxembourg law			
<b>Type of financial product</b>	Undertaking for Collective Investment			
<b>Duration of the product</b>	Indefinite			
<b>Currency</b>	EUR			
<b>Investment objective (related to class A EUR)</b>	<p>The product aims to increase the value of your investment over the medium term, while preserving a portion of the capital invested, through active management of a diversified portfolio composed of different asset classes.</p> <p>Under normal market conditions, the product invests in a diversified portfolio with a focus on the fixed income asset class: mainly bonds, money market instruments and bank deposits in euro. However, up to one third of the portfolio can be invested in shares. The product may invest in these asset classes either directly or through fund units. Where applicable, the product will invest in Euro products, hedged against currency risk, insofar as such products exist. It may invest in securities of issuers from around the world, including emerging markets. In order to diversify the sources of performance, the manager invests in different asset classes and selects securities or units of funds managed by different managers within each of these classes. The equity component of the portfolio will be primarily comprised of units of TreeTop Asset Management funds, each of which applies its own active management approach. The product is managed on a discretionary basis without reference to a market index.</p> <p>You may place orders to buy or sell the product on a daily basis.</p> <p>This product does not distribute dividends (which means that the income generated is added to the price of the product).</p> <p>The product is aimed at individual investors wishing to invest for the long term (we recommend an investment horizon of 3 years). The investor must have a good knowledge of the risks associated with financial markets and be prepared to accept capital losses due to fluctuations in the value of the assets in the portfolio.</p> <p>These objectives as well as the investment policy are an exact copy of those indicated in the corresponding KID.</p> <p>The investment which is promoted concerns the acquisition of units or shares in a fund, and not in a given underlying asset.</p>

### Risk Indicator (class A EUR)

For further information on the risks and the risk indicator of the fund, please refer to the latest KID of concerned classes.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This indicator assesses potential losses in future returns at a medium-high level, and poor market conditions will likely affect the value of the shares in which the product invests and therefore the value of the product itself.

This level of risk reflects the fact that the product may invest up to one-third of its portfolio in shares or units of funds investing in shares and/or convertible bonds, and that it may favor particular economic sectors or regions, including emerging markets.

Under unusual market conditions, additional risks could arise: liquidity (convertible bonds may become hard to value or to sell at a desired price and time), default (an issuer's bonds could become worthless if it is unable

to repay its debts), counterparty (the product could lose money if any entity with which it does business becomes unwilling or unable to honor its obligations to the product), legal and tax risks (the product could be affected by foreign legal and tax changes, some of which may be retroactive). Please refer to the prospectus for more details. This product does not include any protection from future market performance so you could lose some or all of your investment.
