

Key Investor Information

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

TreeTop Global Conservative

A sub-fund of TreeTop Global SICAV Class D EUR ISIN: LU1229301145

Managed by TreeTop Asset Management S.A.

Objectives and Investment Policy

Objective: The sub-fund aims to increase the value of your investment over the medium term while protecting part of the capital invested through the active management of a diversified portfolio comprising different asset classes.

Portfolio securities: Under normal market conditions, the sub-fund invests in a diversified portfolio with an emphasis on the fixed income instruments asset class: mostly bonds, money market instruments and bank deposits denominated in Euro. However, up to one third of the portfolio can be invested in shares. The sub-fund may invest in these asset classes either directly or via units of funds. In such latest case, the sub-fund will invest in Euro share classes, hedged against the foreign exchange risk provided such share classes are available. The sub-fund may invest in securities from issuers anywhere in the world, including in emerging markets.

Investment process: With a view to diversifying the sources of performance, the manager of the sub-fund invests in different asset classes and selects securities or units of funds in these classes managed by different managers. The portion of the portfolio invested in shares will be principally made up of units of TreeTop Asset Management funds, which each apply their own active management approach.

The sub-fund is managed on a discretionary basis with no reference to any indices.

Recommended holding period: The sub-fund may not be appropriate for investors who plan to withdraw their money within 3 years.

This share class intends to distribute a dividend annually.

You can place orders to buy or sell shares of the sub-fund daily.

Terms to Understand

Shares: Securities that represent partial ownership in a company.

Bonds: Securities that represent an obligation to repay a debt with interest.

Money market instruments: Securities that represent a commitment to repay a short-term debt (less than two years) plus interest.

Derivatives: Contracts whose value is linked to one or more securities, interest rates, currencies, commodities or financial indices.

Units of funds: Units or shares of investment funds having a global portfolio of equities, bonds and/or money market instruments.

Risk and Reward Profile

The sub-fund's risk/reward rating is based on its past volatility (how far, and how quickly, its price has gone up and down). Sub-fund volatility going forward could be lower or higher, and therefore its rated risk/reward level may change.

The sub-fund's risk/reward rating reflects following:

- The sub-fund may invest up to one third of its portfolio in shares or units of funds invested in equities and/or convertible bonds,
- The sub-fund may favour particular economic sectors or regions, including emerging markets.

The risk/reward rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify the risks reflected in the risk/reward rating.

The sub-fund is also exposed to the following risks that may not be fully captured in the risk/reward rating:

Liquidity risk: Convertible bonds may become hard to value or to sell at a desired price and time particularly when market conditions are unusual or when the issuer encounters financial difficulties.

Default risk: An issuer's bonds could become worthless if it is unable to repay its debts.

Legal and tax risks: The sub-fund could be affected by foreign legal and tax changes, some of which may be retroactive.

Counterparty risk: The sub-fund could lose money if any entity with which it does business becomes unwilling or unable to honour its obligations to the sub-fund.

Charges

The charges you pay as an investor in the sub-fund go to cover sub-fund operating costs, including marketing and distribution costs. These charges reduce the performance of your investment.

For entry and exit charges, you might be eligible to pay less than the maximum amounts shown. Consult your financial advisor. Ongoing charges vary from year to year and do not include portfolio transaction costs. Ongoing charges are the same for all investors.

The ongoing charges figure shown here is based on expenses for the year ending December 2020.
