TREETOP SEQUOIA EQUITY (EUR)

SUB-FUND OF TREETOP GLOBAL SICAV - MANAGED BY TREETOP ASSET MANAGEMENT S.A., A MANAGEMENT COMPANY UNDER LUXEMBOURG LAW

The present Monthly Factsheet on its own does not give complete information about the SICAV and should therefore be read before any investment together with the Key Information Document (KID), the prospectus as well as the latest annual/semi-annual report of the SICAV.

FUND OBJECTIVE, STRATEGY AND RISKS

The sub-fund aims to increase the value of your investment over the long term. Under normal market conditions, the sub-fund invests mainly in shares from issuers anywhere in the world, including in emerging markets, China and Russia. The sub-fund also invests in other types of securities that are consistent with its objective. The sub-fund may use derivatives for investment purposes or to reduce investment risks (hedging). The sub-fund invests in a portfolio of approximately 50 stocks and consists mainly of stocks of multinational companies offering a high dividend yield and/or instruments convertible into shares or giving the right to acquire shares of these companies. It invests primarily in mid to large capitalization companies. For the AH share class only, the manager's objective is to hedge positions in currencies other than the Euro which represent more than 2.5% of the net asset value of the share class. You can place orders to buy or sell shares of the sub-fund daily. The share classes do not distribute dividends (meaning that any income earned by the sub-fund is added to the share price). The sub-fund is aimed at individual investors wishing to invest for the long term (we recommend an investment horizon of 6 years). The investor must have a good knowledge of the risks associated with financial markets and be prepared to accept capital losses due to fluctuations in the value of the assets in the portfolio. These objectives as well as the investment policy are an exact copy of those indicated in the corresponding KID. We have classified this product as 4 out of 7, which is a medium risk class. This indicator assesses potential losses in future returns at a medium level, and poor market conditions could affect the value of the shares in which the sub-fund invests and therefore the value of the shares issued by the sub-fund itself. This level of risk reflects the fact that the sub-fund invests in a limited number of shares, and may favor particular economic sectors or regions, including emerging markets. Under unusual market conditions, other risks could arise (liquidity, legal and tax risks or counterparty risks). As this product does not include capital protection, particularly against market fluctuations, you could lose all or part of your investment, but not more than the amount of your investment.

PERFORMANCE AND NAV EVOLUTION (Class AH EUR)

NAV evolution of TreeTop Sequoia Equity AH EUR since 2006

Performance summary

Data as of 30 December 2022

TreeTop Sequoia Equity AH EUR
