

TREETOP WORLD ESG LEADERS EQUITY INDEX (EUR)

A SUB-FUND OF TREETOP SICAV - MANAGED BY TREETOP ASSET MANAGEMENT S.A., A MANAGEMENT COMPANY UNDER LUXEMBOURG LAW

The present Monthly Factsheet on its own does not give complete information about the SICAV and should therefore be read before any investment together with the Key Investor Information Document (KIID), the prospectus as well as the latest annual/semi-annual report of the SICAV.

FUND OBJECTIVE, STRATEGY AND RISKS

The fund aims to replicate, as closely as possible, as part of passive management, the performance of the MSCI ACWI ESG Leaders Index net return (the "Index"), regardless of whether its performance is positive or negative. The Management Company aims to achieve a tracking error level (ex-ante) between changes in the valuation of shares of the fund and that of the Index of less than 1.50% (no guarantee is given in this regard by the Management Company).

The Index is an equity index calculated and published by the international index provider MSCI Inc. ("MSCI"). The shares forming the MSCI ACWI ESG Leaders Index are among the most significant values of the equity markets in developed and emerging countries. They represent among the companies making up the MSCI ACWI Index the securities of companies having according to the Index provider the best ratings in environmental, social and governance (ESG) matters.

The exposure to the Index will be achieved through physical replication with a direct investment in all components of the Index. This replication can lead to portfolio transaction costs having a considerable impact on the investment return. These costs are borne by the assets of the fund, in addition to the costs mentioned in the KIID.

However, in order to handle the entries and exits, as well as the characteristics of the local equity markets (market access, liquidity, local tax), the Management Company will be able to combine physical replication with synthetic replication by using derivative instruments such as futures contracts and/or other UCIs, including Exchange Traded Funds. In the event of synthetic replication of the Index, counterparty risk will be higher.

Forward financial instruments may also be used in order to hedge and / or for the purpose of achieving the investment objective.

The net income and net realized capital gains of the fund are systematically reinvested.

You can request the redemption of your shares every bank working day in Brussels, the redemption operations are carried out on a daily basis, subject to the limitations outlined in the prospectus and the articles of association.

Recommendation: this fund may not be suitable for investors who plan to withdraw their investment within 5 years.

This share class is reserved for investors who have an account with the Distributor, TreeTop Asset Management Belgium, and at the time of subscription, give instruction to the Distributor to make a donation to King Baudouin Foundation on their behalf equal to 2% of their investment (meaning for an investment of 100, a subscription of 98 and a donation of 2).

These objectives as well as the investment policy are an exact copy of those indicated in the corresponding KIID.

The fund does not offer either protection or any capital guarantee or a guaranteed yield. The fund is classified in this particular category because it invests in equities, which are generally more risky than the bonds or money market instruments. The major risks for the compartment not included in the risk/return profile are: sustainability risk (environmental, social or governance event or condition that could cause an important negative impact on the value of an investment), counterparty risk (the risk that the credit institution may not honour its commitments with regard these instruments. This risk is present when using financial derivative instruments to ensure the synthetic replication of the Index or to hedge the currency risk) and the currency risk (the fund invests in securities denominated in currencies other than that of the fund, the risk that the value of an investment may be influenced by exchange rate fluctuations is real).

CHARACTERISTICS OF THE MSCI ACWI ESG LEADERS INDEX AND ESG INFORMATION (RELATED TO ENVIRONMENTAL, SOCIAL OR GOVERNANCE ASPECTS)

TreeTop World ESG Leaders Equity Index is a product promoting environmental or social characteristics in the sense of article 8 of the SFDR, since it replicates the MSCI ACWI ESG Leaders Index, and it does not have a sustainable investment objective. It is a passively managed fund.

The MSCI ACWI ESG Leaders Index is a stock index comprising securities in companies having the best ratings ("Best-in-Class" approach) in environmental, social and governance (ESG) matters among the companies making up the MSCI ACWI Index: an index representing mid and large-cap securities from 23 developed countries and 25 emerging countries (the "Benchmark Index").

The MSCI ACWI ESG Leaders Index is constructed by applying to the companies comprising the Benchmark Index (MSCI ACWI) a combination of two filters:

- The **exclusion** of companies participating in controversial activities (example of excluded activities: alcohol, gambling, tobacco, weapons)
- **ESG rating** of the remaining companies according to the MSCI methodology, taking into account 35 issues in the environmental (such as carbon footprint or water use), social (such as occupational health and safety or product quality and safety) and governance field (such as the composition of Boards of Directors or shareholders' rights)
- **Selection by MSCI of companies with the highest ESG ratings**, representing 50% of the market capitalization of each sector and region of the Benchmark Index.

MSCI Inc. is the international index provider responsible for evaluating the selection criteria (more information available at www.msci.com).

For more information related to environmental, social or governance aspects, please refer to TreeTop SICAV's prospectus.

PERFORMANCE AND NAV EVOLUTION (Class C EUR)

NAV evolution of TreeTop World ESG Leaders Equity Index C EUR vs. Reference Index⁽¹⁾ since 2017
