

TREETOP GLOBAL BALANCED (EUR)

**SUB-FUND OF TREETOP GLOBAL SICAV - MANAGED BY TREETOP ASSET MANAGEMENT S.A.,
A MANAGEMENT COMPANY UNDER LUXEMBOURG LAW**

The present Monthly Factsheet on its own does not give complete information about the SICAV and should therefore be read before any investment together with the Key Investor Information Document (KIID), the prospectus as well as the latest annual/semi-annual report of the SICAV.

FUND OBJECTIVE, STRATEGY AND RISKS

The sub-fund aims to increase the value of your investment over the long term through the active management of a diversified portfolio comprising different asset classes.

Under normal market conditions, the sub-fund invests in a diversified portfolio made up of different asset classes. The sub-fund may be exposed, on one hand, to international shares and, on the other hand, interest rate instruments, including bonds, money market instruments and bank deposits. Exposure to interest rate instruments is either through direct investments in these instruments or indirect investments through units of undertakings for collective investment in this type of instrument. The sub-fund may also use derivatives for investment purposes or to reduce investment risks (hedging). The sub-fund may invest in securities from issuers anywhere in the world, including in emerging markets, China and Russia. The sub-fund's exposure to shares of the asset class will not exceed 60%.

With a view of diversifying the sources of performance, the sub-fund is managed by different fund managers of TreeTop Asset Management, each following its own global active management approach. For the AH and DH share classes, the manager's objective is to hedge positions in currencies other than the Euro which represent more than 2.5% of the net asset value of the share class.

The sub-fund is managed on a discretionary basis with no reference to any indices.

The sub-fund may not be appropriate for investors who plan to withdraw their money within 4 years.

The AH and A share classes do not distribute dividends (meaning that any income earned by the sub-fund is added to the share price). The DH and D share classes intend to distribute a dividend annually.

You can place orders to buy or sell shares of the sub-fund daily.

These objectives as well as the investment policy are an exact copy of those indicated in the corresponding KIID.

The sub-fund does not offer either protection or any capital guarantee or a guaranteed yield. The risk/reward rating of the sub-fund reflects the following factors: 1) up to 60% of the sub-fund may be invested in shares, 2) it may invest a part of its portfolio in warrants or call options on shares that are more volatile than shares and may lose their value at expiry date, and 3) it may favour particular economic sectors or regions, including emerging markets. Moreover, it is also exposed to the following risks: liquidity (convertible bonds may become hard to value or to sell at a desired price and time), default (an issuer's bonds could become worthless if it is unable to repay its debts), counterparty (the sub-fund could lose money if any entity with which it does business becomes unwilling or unable to honor its obligations to the sub-fund), legal and tax risks (the sub-fund could be affected by foreign legal and tax changes, some of which may be retroactive).

PERFORMANCE AND NAV EVOLUTION (Class AH EUR)

NAV evolution of TreeTop Global Balanced AH EUR since 2011

Performance summary

Data as of 31 March 2021

TreeTop Global Balanced AH EUR	
Cumulated returns	
March	-3.1%
