

**TREETOP MULTI STRATEGIES DYNAMIC (EUR)**

**A SUB-FUND OF TREETOP SICAV - MANAGED BY TREETOP ASSET MANAGEMENT S.A., A MANAGEMENT COMPANY UNDER LUXEMBOURG LAW**

The present Monthly Factsheet on its own does not give complete information about the SICAV and should therefore be read before any investment together with the Key Investor Information Document (KIID), the prospectus as well as the latest annual/semi-annual report of the SICAV.

**FUND OBJECTIVE, STRATEGY AND RISKS**

In subscribing to TreeTop Multi Strategies Dynamic, you are investing in a sub-fund whose objective is to exposure to shares of companies in global developed and emerging markets indirectly through investments in units or shares of undertakings for collective investment.

Under normal market conditions, the sub-fund's portfolio mainly consists of shares of undertakings for collective investment with variable capital ("UCI"). The sub-fund may invest up to 100% of its net assets in shares of undertakings for collective investment investing mainly in shares and/or other securities giving access to the capital of companies in global developed and emerging markets.

The sub-fund will seek a balanced allocation between indexed undertakings for collective investment aiming to track stock indices as closely as possible and actively managed undertakings for collective investment having an investment policy of selecting shares according to a manager-specific approach, regardless of whether they are part of a stock index. The choice of undertakings for collective investment will seek to ensure diversification in management styles, economic sectors and geographic areas. Active undertakings for collective investment will mainly be undertakings for collective investment managed or promoted by TreeTop Asset Management S.A. or its affiliates.

The sub-fund is actively managed without referring to any stock market indices.

The sub-fund will not engage in securities lending.

These objectives as well as the investment policy are an exact copy of those indicated in the corresponding KIID.

The sub-fund does not offer either protection or any capital guarantee or a guaranteed yield. The sub-fund is classified in this particular category because through the UCIs it holds in the portfolio, it invests in equities, which are generally riskier than bonds or money market instruments. The sub-fund is also exposed to the following important risks that may not be fully captured in the risk/reward rating : capital risk (the sub-fund is not subject to capital guarantee or capital protection, investors may therefore lose all or part of their capital), sustainability risk (environmental, social or governance event or condition that could cause an important negative impact on the value of an investment), risk associated with external factors (uncertainty relating to certain environmental elements, such as the tax regime), and currency risk (the assets consist mainly of shares of UCIs. Although these shares may be denominated in EUR, the assets held by these UCIs may be denominated in various currencies depending on the markets in which they invest. Fluctuations in exchange rates between the euro and these various currencies will therefore have an influence on the NAV of the sub-fund).

**PERFORMANCE AND NAV EVOLUTION (Class A EUR)**

**NAV evolution of TreeTop Multi Strategies Dynamic since 2019**

**Performance summary**
