

TREETOP SEQUOIA EQUITY (EUR)

**SUB-FUND OF TREETOP GLOBAL SICAV - MANAGED BY TREETOP ASSET MANAGEMENT S.A.,
A MANAGEMENT COMPANY UNDER LUXEMBOURG LAW**

The present Monthly Factsheet on its own does not give complete information about the SICAV and should therefore be read before any investment together with the Key Investor Information Document (KIID), the prospectus as well as the latest annual/semi-annual report of the SICAV.

FUND OBJECTIVE, STRATEGY AND RISKS

The sub-fund aims to increase the value of your investment over the long term.

Under normal market conditions, the sub-fund invests mainly in shares from issuers anywhere in the world, including in emerging markets, China and Russia. The sub-fund also invests in other types of securities that are consistent with its objective. The sub-fund may use derivatives for investment purposes or to reduce investment risks (hedging).

The fund management team selects - based on criteria such as product innovation, quality of management, sector leadership, valuation - companies around the world that appear to offer solid growth prospects or whose securities seem to them undervalued. The sub-fund invests in a concentrated portfolio made of shares of these companies and/or in financial instruments convertible in shares or entitling the sub-fund to acquire shares of these companies. The sub-fund invests mostly in mid-cap and large-cap companies. For the AH share class only, the manager's objective is to hedge positions in currencies other than the Euro which represent more than 2.5% of the net asset value of the share class.

The sub-fund may not be appropriate for investors who plan to withdraw their money within 6 years.

The share classes do not distribute dividends (meaning that any income earned by the sub-fund is added to the share price).

You can place orders to buy or sell shares of the sub-fund daily.

These objectives as well as the investment policy are an exact copy of those indicated in the corresponding KIID.

The sub-fund does not offer either protection or any capital guarantee or a guaranteed yield. The risk/reward rating of the sub-fund reflects the following factors: 1) it may invest in a limited number of shares and 2) it may favour particular economic sectors or regions, including emerging markets. Moreover, it is also exposed to the following risks: liquidity (convertible bonds may become hard to value or to sell at a desired price and time), counterparty (the sub-fund could lose money if any entity with which it does business becomes unwilling or unable to honor its obligations to the sub-fund), legal and tax risks (the sub-fund could be affected by foreign legal and tax changes, some of which may be retroactive).

Manager

Jacques Berghmans
