NOTE 1 - ACCOUNTING PRINCIPLES AND METHODS

The value of securities which are not quoted on an official market and whose price is not representative shall be based on the last available market price or, in the absence of a market value, on the probable realisation value estimated according to valuation criteria as determined in good faith by and under the direction of the Board of Directors of the SICAV.

b) Net realised profit or loss on investments

Evaluation of the contracts of forward foreign exchanges contracts, spot or contracts of options which are not negotiated on stock exchanges or on other regulated markets amounts to their net value of liquidation determined according to the decision of the Board of Directors, on a basis applied in a coherent way to each products. The value of liquidation of the forward contracts, spot or contracts of options negotiated on stock exchanges or other regulated markets is based on the last available price of these contracts on stock exchanges and regulated markets on which these contracts of options are negotiated by the SICAV. As far as if a contract cannot be liquidated the day at which net assets are estimated, the value of liquidation will be determined by the Board of Directors in a just and reasonable way.
